

A.T.S. OVERSEAS.

Nairobi Station and the arrival by train of 200 A.T.S. - the first batch of girls from the United Kingdom for Service in East Africa.

A.T.S. - Adventure Through Service say the recruiting posters.

Well, here's a slice of adventure all right, and nice cups of tea to go with it.

Number 1. A.T.S. Clerical Company marches out of Nairobi Station.

From now on they will serve in the East African command.

The arrival at Camp. Headquarters is set in beautiful surroundings in the very equatorial bushland of Kenya.

And now to make themselves at home. Not quite the same as IVYDENE,

The Laurels or Sea View, but there's a lot in East Africa you don't

find in Main Street. They'll get on all right.
