

**"SOFTENING" SICILY.**

In the Mediterranean area the bomber boys are applying the knowledge they acquired back home. Among other exploits they are battering Sicily; the process of softening the Island which lies like a pimple on the under belly of the Axis.

They There they go, like a champion darts player throwing for every double on the board.

A Sicilian aerodrome is smothered with Fragmentation bombs which chop everything down like a scythe. The airfield was a jumping-off place for North Africa... Now they just stay there and jump.
