TITLE. :- MAD ON FLYING.

Picture.: Though not yet 15 years old, this young lady is very keen on flying. She is studying at Heston Aerodrome for her ground engineer's aero certificate. She doesn't intend staying on the ground - for she asserts that she's going to fly the Atlantic as soon as she is seventeen and can hold a flying licence.

Here she is in the cockpit having a lesson on controls.

At Heston they are finding that Leslie is a very good pupil and doesn't need telling a thing twice.

Is Leslie's Mother anxious about her daughter ?

She is NOT !

TITLE. :- BE PREPARED.

Picture.: The beloved Chief Scout receives a very hearty welcome when he attends this rally.

Mounting the rostrum he gives the scout's salute to one of the biggest gatherings of boy scouts ever seen in North London - and as he addresses words of encouragement to them they listen eagerly to every word.

When their respected leader and chief leads them in giving three cheers, you can believe me, those cheers are the heartiest, loudest and happiest cheers any gathering of boys ever sent rolling skywards.
