TITLE.:- GOAT STAMPEDE.

Picture.:- When a cameraman asked to be allowed to film wild goats, he was called everything, but goat, but nevertheless he was told to go -to it! (ahem!) and these are the remarkable pictures he secured.

He settled down comfortably to film this great troop when suddenly he sneezed, with this result!

Down the mountain-side they poured, scared out of their wits at the unusual sound.

"A waterfall of goats" might aptly describe this scene, I can't think of a better term.

Our cameraman claims that he has learnt some goat language, for he says these animals all cried "Ma-a-a Ma-a-a" and if that doesn't mean "Get out of the way" - Well what does?

TITLE.ROUND EUROPE AIR RACE.

Picture.: The race started in terrible weather.

First to arrive at Heston was A.S. Butler in his D.H. Moth.

Then came Thorn followed by J.E. Carberry in his Mono Special.

Women again to the fore - Miss D.E. Spooner arrived shortly afterwards.

Then came a French competitor, Monsieur Flessis - with H.S. Broad closely following upon the French machine.

Lady Bailey was next to arrive -

Here's Miss Spooner preparing to set out on the next lap, with some four thousand miles to go!

The race will take from twelve to fourteen days.
