TITLE.:- WORLD'S TALLEST BUILDING.

Picture.:- It somehow seems natural for big things to happen in America and although perhaps it is not strictly correct to say that this huge edifice "happened" - it is certainly there !

Here's a striking "shot" - looking down into the streets.

Just imagine it, this building is four times higher than the Monument of London.

To get to one of the upper stories, one takes an "express" lift to, say, the fortieth floor, and then changes to a "local" lift - just as we might do on a railway.

New York is undoubtedly a rising city !

TITLE.:- "OUTDOOR COURT"

Picture.:- Nearly six thousand guests attended this brilliant function.

As their Majesties passed to the Golden Canopy respectful homage was paid them by beautiful women and famous men.

The weather which had been rather bad, proved to be rather kinder on this occasion, for the sun now and again peeped through the clouds.

Thus many of the charming frocks, to which had been given much thought and care - were seen to advantage between showers.

These pictures were taken - of course - from outside the Palace Grounds.
