

TITLE.:- HUMAN PROJECTILE.

Picture.:- A "crash" helmet is considered advisable by this intrepid fellow. It's quite a good idea too - for he might come a "cropper" one of these days.

Fathers ! if you're looking for a not-too-crowded profession for a young son, here's one, although I would hesitate to recommend it, as a permanent job, at any rate.

So that you will get a real idea of how this chap takes the air, we filmed it with the ultra rapid, or slow-motion, camera.

Here's the result.

Puff ! and out he comes - actually he was being shot through the air ten times faster than you can see him here.

See how he bounces like a rubber ball !

And now - no matter how clever he is - he can't do this - it takes a film operator to do the really clever things in life ! (ha ! ha !)

TITLE.:- HIGHLAND GATHERING.

Picture.:- The world's worst weather met these hefty Highlanders at Scarborough - and it kept many people away from their display.

Tossing the Caber - this braw laddie puts over a good one - and incidentally - oh ! - scares our cameraman.

How these people can thrill one with their dancing of the Scotch reel.

These Highlanders are experts at "Throwing the Hammer" - here's a picture of strength.

Now watch the man in the distance ! - our operator gets another shock ! That was a near one !

They're splendid-looking people - these lassies and lads - aren't they ?

COMMENTATOR.:- Well ! Cheerio everybody ! We'll be with you again in a few days.

TRADE MARK. "UNIVERSAL TALKING NEWS".
