TITLE.:- BOBBY JONES DOES IT AGAIN.

Picture.: When Bobby Jones drives, the ball just shoots straight down the fairway like a shot from a gun - and the gallery can be certain of a long trek.

This is the deciding "hole" which won him the Championship - a beautiful "putt", finding the hole as through drawn by a magnet.

Sorry we could not give you a closer view but Jones hates having film cameras clicking nearby when he is playing - he's not to be blamed for that!

So the golf wizard gets another "pot", - his side-board must be overloaded by now.

TITLE.:- TO PARIS BY CANOE?

Picture.:- These fellows have some pluck.

They are to race from London to Paris in these collapsible canoes which only weigh forty pounds each.

The nations to be represented, each by a crew of two, are England, Ireland, France, Germany, Austria and Rumania.

This test of the little craft, at Folkestone gives us a fair idea of the seaworthiness of the canoes, but nevertheless the crews will need all pluck they've got to cross the channel in them.

Although these fellows are quite confident of success, the placid waters of the Harbour would better suit me.

These two packages contain one of the canoes packed up for transportation after being tried out.
