TITLE.:- THE NAVAL TREATY.

Picture.: This film was taken by special permission in the East Room of the White House.

Here we see President Hoover, supported by his principal executives receiving the Instrument of Ratification from a secretary, and affixing his signature -- thus indicating that the United States of America approve the Naval Treaty as agreed in London.

Secretary Stimson, whom you will remember as the leader of the American delegation to London, then affixes his signature.

The treaty marks a further step towards "lifting the burden of militarism" said Mr. Hoover at the conclusion of the ceremony.

TITLE.VETERANS OF THE ROAD.

Picture.: A big crowd gathered at Brooklands to see the world's oldest cars.

This one was born in eighteen-ninety-seven and is still going -- wrong !

While this comparative youngster is twenty eight years old.

King Edward rode to Ascot in this, thirty old years ago.

And believe it or not -- this is a Rolls-Royce.

Brooklands has surely never seen a stranger sight than this. Every one is a rattling good car.

I'd hate to tell you how many nuts were shaken loose at this turn ! But these old stagers still keep going.

Here's the finish -- not much of a thrill -- but oh! what a noise
