MAIN TITLE.:- UNIVERSAL TALKING NEWS etc.

OPEN WITH FANFARE OF TRUMPETS.

COMMENTATOR.:- Hullo everybody ! This is the Universal Talking News Reporter screen-casting the latest news.

(1).

TITLE.:- NEW TO THE NEWS.

Picture.:- This 'plane is taxi-ing towards a kind of landing ground you've never seen.

It consists of a large floating field, five hundred feet wide, and is moored in place by heavy cables and anchors.

As you see, machines -- by their own power -- crawl out of the water on to the so-called "Button".

Passengers are then discharged or taken aboard -- and once again the plane takes to the water.

These floating islands might well become popular.

(2).

TITLE.:- DRAINPIPE GOLF.

Picture.:- These midget golf courses are great fun.

You putt the ball into the hole and it comes out at the other side.

There are water hazards to catch the unwary -- as they do, often.

Watch this ! In --,and Out.

Playing for the centre trap -- a short shot goes through to the green beyond.

This is called the Switchback -- the ball comes back if you don't get it over.

This innovation caught on instantaneously at Blackpool and very soon we can expect to see many of these amusing courses in this country.
