TITLE.:- FIRE BRIGADE CHURCH PARADE.

2-584581

Picture. :- If you live in the south-eastern district, you should think yourself mighty lucky your house didn't catch fire while all these "brass hats" were away at Ramsgate attending their annual Church parade.

I rather think though, that a Fire Call would have meant that they would have abandoned the Church Service for the kind of service we expect - and get - from this splendid force.

Some five hundred fire-fighters attended the service.

Many vehicles intended for sterner purposes brought their crews from distant parts of Kent, but naturally, Ramsgate and Margate were specially well represented.

No less than ten thousand people forsook the beach and other seaside attractions to attend the service which was held at the St. Laurence Cliff bandstand at Ramsgate.

Here is the vast congregation -- Possibly the biggest ever addressed by the Vicar of Ramsgate, who conducted the service.

Luckily no fire call was received to interfere with the harmony of the gathering.

TITLE.DIVING BY FLIGHTS.

Picture.:- Quite a crowd was attracted by this unusual display.

One doesn't often see as many as five taking a header at once. That looked well !

In fact it looked so good we are showing it you again -- this time, as seen by the slow-motion camera, which means that the action is slowed down to one sixth of normal.

Here's a novelty triple dive -- which we have slowed down after the drop so that you can get a real idea of the grace of these divers.

But it was this flight of seven which thrilled the spectators most.

You might have thought that only five took part in that dive but if you watch closely you will see that there are two more on the other side of the diving board.

This is rather a welcome change from ordinary diving displays
A triple dive concludes our picture.
