

(4). TITLE.:- YOU CAN SEE A LOT OF THINGS.--

Picture. :- It's alright ladies, I'm not going to tell the men where these bright young things are at present. Never let it be said!

They find it quite a change from the stuffy atmosphere of the theatre -- rehearsals are not so boring under these conditions.

They've plenty of 'kick' in them. I'm told that its all done by kindness -- and a pay envelope on Friday night.

Serious work over, they have a bit of fun on their own. I think I can understand why our cameraman came back broke from taking this film! Take a closer look at them.

They look as though they could consume ice-cream by the quart!

(5). TITLE.:- HER LAST VOYAGE.

Picture.:- She is one of the forty-four ships scuttled at Scapa Flow after the Great War. She laid under water for eleven years and it took nearly a year to raise her. Here she is being towed up the Firth of Forth, on her way to the shipbreakers.

The Hindenburg, once the pride of the German Navy was a battle cruiser of twenty eight thousand tons. Some of her big guns are still in position -- they'll perhaps be turning them into razor blades or lawn-mowers when she is broken up.

The bringing to the surface of this huge vessel is one of the greatest salvage feats ever attempted -- but success attended the efforts, although it cost over three hundred thousand pounds to do it.

One really wonders whether it was worth it.
