## (4). TIPLE :- YOU CAN SEE A LOT OF THINGS .--

Picture. ! - It's alright ladies, I'm not going to tall the men where these bright young things are at product. Never let it be said !

They find it quite a change from the stuffy atmosphere of the theatre -- rehearsels are not so boring under these conditions.

They've plenty of 'kiek' in them. I'm told that its all done by kindness -- and a pay envelope on Friday night.

Serious work over, they have a bit of fun on their own. I think I can understand why our easersman came back broke from taking this film ! Take a closer look at them.

They look as though they could consume ide-cream by the quart !

## (5). TITLE :- HER LAST VOYAGE.

Picture.:- She is one of the forty-four ships scuttled at Scape Flow after the Great Wer. She laid under water for eleven years and it took nearly a year to raise her. Here she is being towed up the Firth of Forth, on her way to the shipbreakers.

The Hindenburg, once the pride of the German Havy was a battle cruiser of twenty eight thousand tons. Some of her big guns are still in position -- they'll perhaps be turning them into ranor blades or lawn-mowers when she is broken up.

The bringing to the surface of this huge vessel is one of the greatest salvage reats ever attempted — but success attended the offcrts, although it cost over three hundred thousand pounds to do it.

One really wonders whether it was worth it.
