TITLE.:- BOYS AMATEUR GOLF.

250588
25581

Picture.:- Tall boys, short boys, fat boys, thin boys -- in fact boys of all sorts and sizes gather at Fulwell to try to wrestle the boy's title from Jack Lindsay, the Scots boy, the present holder.

Here's Lindsay himself driving a "beauty" straight down the fairway.

--and another "holing out" to beat Tingle, four up and three to play.

This is Hancock, the heavy weight among the competitors, who puts sixteen stone behind a ball---

--and defeats Park, five and three.

The tallest competitor -- Godfrey -- stands six feet in his socks --

-while this little chap is Scott -- who happens to be a real Scottish "scot".

They found it very hot out on the course -- so you can't blame them, for resorting to feminine commonsense.

Here's Winter of France, sending one on a long straight aerial flight ---

He beat Annett six up and five to play.

They've mastered the game alright -- and when they've mastered the language -- champions must look to their laurels.

(9).

TITLE.+ RECORD TIP.

Picture.:- His "tips" are very very big ones. See this -- and he does it with one hand too! In tipping on so grand a scale he makes a splash.

All his "tips" are certs -- that's more than I can say about those I get.

Here's one man, at least, who is always putting out his hand for tips -- and he isn't a waiter!
