(3).

TITLE. :- HOPPING IN AUSTRALIA.

Picture. :- Only by hiding himself in a pile of brushwood was the cameraman able to secure pictures of these timid creatures.

They hop about like -- er, well -- like very much smaller living objects I've heard about ! There are more --

--hops here than you could find in many Kentish hop-fields !

This big bouncer comes for us -- whoa ! he hears the whirr of the camera and "hops it" -- all out !

They'd stand a fine chance in the Grand National; look at the way they take these jumps -- all in their stride, as it were.

This might be called a story of tails !

Joey's got a life of ups and downs before him !

TITLE. :- INTERNATIONAL MARATHON.

Picture. :- The competitors march to the plateau of St. George's Hall for the start of this, the biggest race seen in Lancashire for many years.

Despite the dull weather, 146 take their places in the line up.

Off ! What a mass ! They can't all be in front, even at the start ! Good luck, boys ! They've got over twenty six miles to go -- and it looks like rain.

It's simply teeming down at Roby -- half way to the finish.

Here's Wood of Makerfield winning easily for the second year in succession.

Thus, this fine runner wins outright the famous gold cup.

Here it is, Sir ! Take it ! You certainly deserve it !
