

TITLE:) RACING IN GERMANY

Picture. :- Some sixty speed-merchants, including many Britishers, are in this big race.--

--which is contested over the twenty kilometre auto-road just outside Berlin. The last batch get away close on the heels of the others.

Some of them get over a hundred miles an hour out of their petrol steeds on some parts of the course.

The English competitors retired early;; despite extraordinary ability at cornering -- they all badly overtaxed their machines on the ten kilometre straight run.

It was one of the most exciting races seen in Berlin for some time.

The crowd were very delighted to see Huth win --
--which he did by quite a fair margin.

Here are the competitors coming in --
--to pose for the cameraman.

And here's Huth looking fit enough even now.
