(2). TITLE.:- FRENCH PRESIDENT IN BRITTANY.

Picture.:- This is the first undertaking of the President on his tour of Brittany.

A big crowd watches the addition of 10,000 tons to their own navy, at Brest.

Monsieur Doumergue is in particularly happy mood as --  
--the new cruiser glides gracefully down the slipway !  
She looks to be an enormous length from this angle --  
and there's more to come yet ! Would you believe that ?

She's held by strong cables to prevent her from smashing into the quay opposite the slip-way. She's the --  
sixth new French cruiser since the Washington Conference.

SUB-TITLE.Later etc.

The new bridge is over half a mile long.

It's the first time a President of the Republic has visited this part --

--and a warm welcome is accorded him. Taking the golden scissors, the First Citizen of France shows he can cut off a yard or two as neatly as a draper's assistant; but he doesn't stay to wrap up the goods!

He's got a long way to go on his tour of Brittany.

(3). TITLE.:- RHYTHMIC GYMNASTICS.

Picture.:- Here are a few tips for the ladies who are worried by excessive avoirdupois !

Try these exercises and see stones roll away!

I wouldn't like to say these delightful little ladies --

--were ever on the heavy side, but they take care that they'll never overtax the weighing machine.

Apart from all that, what a very attractive picture of elegance and supple grace they make !

They call it rhythmic gymnastics -- certainly, their rhythm leaves nothing to be desired.
