

18352-2
18352-1

(8). TITLE.:- LIVING LIGHTNING.

Picture.:- All set ! -- and away they go. One of the fastest races ever run on a track.

Here they come ! Leland is third from the right. He just wins --

--setting up that wonderful new record which'll take some beating.

(9). TITLE.:- THE MOTOR SHOW.

Picture.:- Eight nations are represented in this, the world's greatest motor-show. Five hundred cars are on view in Olympia, and an eager public paid ten shillings a head on the opening day for a first view of next year's models.

Cars are priced at almost any figure from £100 to £3000 --

--and some of the pocket editions were certainly a source of attraction to many of the visitors.

As you see, people are not satisfied with external appearances only, nowadays.

An interesting exhibit. The first Royal Car -- built for King Edward the Seventh, --

--while this is the chassis of one of the latest ordered by King George.

This is how it will look when ready for His Majesty.

Many new devices are introduced into the cars and already manufacturers--

--are talking about the hundreds of thousands of pounds worth of business already done. If half they say is true, all's well !
