

(6).

TITLE.:- GERMAN MINE DISASTER.

Picture. :- Hundreds of men were trapped underground when the explosion occurred.

Mighty efforts were made to rescue them but few of --  
--the buried miners ever again saw the light of day.

It was one of the most appalling mining disasters in--  
--living memory. At first it was thought that the explosion--  
--occurred in a dynamite store below ground, but later --  
--that dread gas, fire damp, was blamed for the tragedy.

Apart from the terrible havoc wrought in the workings--  
--the whole of the above-ground buildings have been destroyed.

Our sympathy goes out to Germany at her loss of so many  
brave men. For all miners are brave men.

TITLE.:- STAND AND DELIVER.

Picture.:- The elements were against them, but the undaunted  
students set about holding the city to ransom for the  
benefit of the hospitals.

They had half-a-million people to tackle, so the task  
was no light one. Future doctors, barristers and teachers  
in all sorts --

--and conditions of disguises, wheedled and cajoled money  
from the onlookers.

They aimed at raising £7000 by their efforts this year.  
It is not yet known if they have succeeded -- but, jolly  
good luck to them, anyway. Their's is a splendid effort,  
and deserves success.

Some of the tableaux were distinctly clever. Here's  
a good one -- "League of Donations" -- they appear to be  
finding a fair number of willing subscribers, too.

The Carnival carried on throughout the entire day and  
far into the night.--

--and only faded away when Birmingham had given up every  
penny it could possibly spare.
