COMMENTATOR.:- Hullo everybody ! This is the Universal Talking News reporter screen-casting the latest news !

(1). TITLE.:-MOUNTAINKINGING MOTOR-CYCLISTS.

Picture.:- Each man who tackles this one-in-two gradient stands a pretty good chance of being short of a motor bike,--

--for it certainly seems that, except by using a sledge hammer, there's no more definite way of smashing up a perfectly good bike.

Here's one chap who's doing very well, until --

--near the top. Then he gets it too ! Look out ! Ooh ! He must have been born under a lucky star.

Here's a very good bike (Ow !) being turned into so much scrap-iron. The rider's not hurt. Good !

Another tries it, even after that ! But, CRASH, he somersaults too ! And sees some beautiful stars !

Here's a good one ! Going all out ! Great stuff ! That's something like an effort ! He's done it ! Splendid !
