(2). TITLE.:- GOING OR COMING PLANE.

Picture.:- It's an extremely weird looking contraption, but it is claimed that it can't possibly turn over in the air, and that it will always land dead square, without a topple.

It looks, for all the world, as though it's flying backwards.

Perhaps that's to keep the dust out of its eyes ! It looks as though--

--it would get you there before you start !

(3). TITLE.:- DISTINGUISHED VISITORS.

Picture.:- The Indian Round Table Conference --

--has brought many very distinguished people from British India to England. Apart from the --

--main object of their visit, they are taking the opportunity of seeing as much as possible of the --

--commercial activities of Britain. This tour of a motor works, proves to be of much interest to the visitors,--

--the ladies of the party being just as keen for all information as the gentlemen.

With the improvement of roads in India, there should be a big future for cars--

--in that country, and there's no reason why they shouldn't be British cars.

The tour was arranged by the India Office in London, and, oh ! it's nearly one o'clock, and one o'clock means it's time for lunch !
