MAIN TITLE.:- UNIVERSAL TALKING NEWS etc.

OPEN WITH FANFARE OF TRUMPETS.

COMMENTATOR.:- Hallo everybody ! This is the Universal Talking News reporter screen-casting the latest news.

(2).

TITLE.:- SOLDIERS AWHEEL.

Picture.:- It looks more like a vaudeville act than a serious test, --

--yet it's an important part of their serious training, --

--designed to give them confidence in handling their mechanical steeds,

They are acrobats too ! and should be quite useful chaps in their job, which is, of course, --

--one requiring plenty of nerve and stamina. They welcome this as a break from general military routine. You can't blame them !

Either way up ! They don't care ! One way's as easy as another to them !

This wants a bit of beating as a test of balance. But they have to do more than this. They learn to --

--shoot, three up on one machine ! This gives them something to think about ! It's even more difficult than it looks !

Here they are, BANG !, back on the parade ground after their little run on the country roads.
