TITLE.:- ITALY EN FETE.

Picture. :- Up till now this has been regarded as a patriotic festival, but this year sees its --

--beginning as a fete of an official national character, which, as much as anything means,--

--a holiday for all. It also means great patriotic gatherings in the squares and open spaces.

This particular one meant "Italy, now and for always".

What finer slogan could a people have ? How they look up to their wonderful leader, Signor Mussolini,--

--who must be a very, very proud man that his countrymen pray for the King and Mussolini.

If there's not much excitement, trust Italians to make some. Here's one-hundred-per-cent of patriotic fervour with every single one thrilling to the excitement of the moment.
