

(4). TITLE.:- AGRICULTURAL PAGEANT.

Picture. :- Here's the show ground from up aloft. As we flip around above, we may "look down" on it, but --

--when we come down, we are forced to "look up" to the exhibitors of the splendid animals on parade. For they are, without doubt, some of the world's best cattle.

Here are some beauties. Most of them will grace the festive board in the near future.

Tens of thousands attend this, the biggest show of its kind, in the biggest island in the world !

Australia always was great on horses. She still is, as you see !

A big attraction, apart from the cattle, was the all-Australia --

--Tree-felling contest, in which a dozen expert woodchoppers from outback pit their skill against each other.

This is Joe Caldwell, a hefty backwoodsman who literally carves his way to victory. A mighty swipe -- off it comes. He's the winner!

The exhibition has its temporary township, in which manufacturers of agricultural goods display their --

--wares for the benefit of the thousands who come from all parts to visit the show.
