

(8). TITLE.:- AERIAL OPTIMIST.

Picture.:- We mustn't laugh at this peculiar contraption. It might fly ! More wonderful things --

--have happened in our time. It's got a good name to start --

--off with, anyhow - Helio-Gyro, from Helicopter and Gyroscope.

It is claimed that it will rise vertically, alight similarly, fly backwards --

--as well as forwards, and fall gently. Let's hope so !
