

(7).

TITLE.:- RAILWAY RED CROSS.

Picture.:- Naturally, nobody wants railway accidents to occur, but they have happened.

So the German Railway people decide to be --

--ready in case one should happen. This is a try-out of the new Ambulance Train. At the scene --

--of the supposed smash, the Red Cross men get --

--quickly to work, giving first aid to the victims. With --

--great care, they are placed on stretchers and tenderly --

--taken aboard the travelling hospital. Everything possible is done --

--to make them as comfortable as circumstances permit, while the train --

--rushes them, with all speed, to the --

--nearest town possessing a regular hospital.
