TITLE.:- JOYS OF TOYS.

Picture.:- They're all wound up and going. While Her Ladyship is completing her toilet, the beld, bad Sir Thomas enters and starts love-making. So we'll leave them --

--and pay a visit to a little "toyland circus" where 'Joey' the clown, plays the part of ring-master with clockwork precision.

The 'Dancing Duo', Pongo and Teddy, will delight many youngsters with their elephantine wobbling. A contrast --

--to the daintiness of this delightful little lady-doll, and her accomplished accompanist with his violin. There are two --

--things that baby hates -- and beetles are both of them ! Apparently the insect likes blowing babies even less than that !

They call this a moving frieze. "Frieze" indeed, it looks as though it'll be hot when the striped gentleman catches the croaker he's chasing.
