

2024/51

(8). TITLE.:- NEW LIFE SAVER.

Picture.:- Over 4,000 people were killed by motors in 1929. The --

--Doctor shows us by means of a model how these fatalities might have been avoided.

When the real bumper strikes an obstacle it revolves and --

--drops to within two inches of the ground.

Here's how it treats a dummy laid in the road as a test !. Oh !

Ah ! no harm done, the figure only gets a long roll.

The inventor promised us a real thrill. He keeps his word ! Look out ! Ow ! He's got nerve ! and confidence in the auto-saver.

It's all over, but he's not been run over ! He's a bit shaken, but that's better than having a ton lorry on --

--his chest ! You're alright ? Good man ! Have a cigarette ? If he'd taken two, they wouldn't have minded, for they might have been subscribing to a wreath !
