

(8). TITLE.:- MIKADO'S BROTHER.

Picture.:- His Imperial Highness, Prince Takamatsu, arrives in Rome. One of his first --

--duties is to pay homage to the memory of Italy's fallen, at the majestic tomb of the Unknown Warrior of our late allies. With bared heads the illustrious Japanese incline their heads in reverence to those --

--who "passed on" in the Great War. His Imperial Highness has visited most of the civilized countries of the world, since he set out early in the year, with his newly wedded Princess.

Italy adds another page to his book of experiences. They say that travelling broadens one's mind. The Prince must be very broadminded by now !

He is certainly having his full share of travelling.
