TITLE:- HERE WE ARE AGAIN !

Picture:- Grown-ups love to take the kiddies to the pantomime; and woe betide the --

--youngsters if they interfere with the elders' enjoyment of the show! You may --

--be sure that father won't miss much of it ! There are too--

--many girls in it for that ! They are rehearsing for the Lyceum --

--show, which takes a lot of licking into shape ! While all this is going on, --

--the principals - away in a corner - are trying out their many and varied vocal numbers to the strum of a piano.

Dancing is always a big feature of these shows. Here's a bright little exponent of the light fantastic. She's still got a lot to --

--rehearse before the curtain rings up on opening night !
