(3). TITLE.:- SPANIELS ON TRIAL.

Picture.:- They're out for a day's sport. The dogs are to compete for over a dozen prizes for retrieving --

--work. Their masters search for something to test the dogs' abilities with - in this case, rabbits.

There goes one ! Bang ! - That got it !

And so has a spaniel ! Come along, boy ! This way ! He brings the prize straight back to his master. He knows what's expected of him, and does it ! Good chap !

He hands it over, and won't take it back ! He doesn't like rabbit, without pork !

Another one does a little bit of mountaineering. They --

--all acquitted themselves very well indeed at these trials, but the very --

---best of all is "Invershin", a bright eighteen months old cocker spaniel.
