TITLE.:- MISS ENGLAND.

Picture.:- You will remember how Sir Henry Seagrave lost his life when Miss England II sank after breaking the world's --

--water-speed record on Lake Windermere. The boat is now being overhauled and put into condition for Mr. Kaye Don to make an attempt on the record. The same Rolls-Royce engines are being re-installed, and much is expected of the --

--re-conditioned craft. Kaye Don, himself, is taking his attempt very seriously. He is already in strict training, and has given up smoking and drinking until after the great day. He has every confidence in Miss England, and believes she will create yet another world's --

--record. Here's to you, Miss England I. May you not disappoint Mr. Kaye Don !
