

(5). TITLE.:- SCHOOLBOYS' PARADISE.

Picture.:- The Lord Mayor sets a good example to all boys. He arrives before even the carpet is laid down for him! Rather embarrassing for the Olympia authorities - but a good lesson in punctuality. Let's take a look at the Exhibition Sir Phené --

--Neal opens. Here is a splendid model mountain railway, made and operated entirely by a couple of boys from an elementary L.C. C. School.

A taxi-ing trip in a real scale model seaplane gives a big thrill to some of the young visitors to the Exhibition, --

--while many gaze in wonder at this 40 foot model of the mighty 42,000-ton Express of Britain. Now --

--here's a modern miracle. It is a device which automatically lights up as natural light fades; so, if a fog settled down, the floodlights would come into action without human aid. Marvellous!
