

(5). TITLE.:- BRILLIANT AFFAIR.

Picture.:- How many of you, who are fortunate enough to possess one --

X --or two of those little bits of crystallised carbon,--

--called diamonds, ever pause to think of the --

--mighty efforts that go to wrest them from Mother --

X ✓ --Earth? * At this diamond mine, over --

--four-hundred-thousand cubic yards of sand were lifted, shifted, and sifted, to secure --

✓ --about 400 ounces of the coveted stones. *

It doesn't sound much, but when you learn that they're worth over a quarter --

--of a million pounds - well ! - that's different ! Looks like coal --

--before the final operations are completed ! Then keen eyed spotters get --

✓ --to work.* You can be sure, very few diamonds --

✓ --elude them ! * Here are the fruits of all that work ! If this little --

--lot were yours, you could ask the boss how much he wants for his business.
