

(1). TITLE.:- CITY OF MUMMERS.

Picture.:- All Philadelphia turns out to see the big winter procession.

They are well rewarded, for it's a "worth-while" show.

The magnificent white-satin trains have a novel--

--effect, viewed from above.....Scores of thousands, from far and wide, are --

--here to join in the fun.... The weather is kind, and --

--hullo ! Horseshoes ! Come on, my lucky lads !....

These are lads, too ! but don't look it !

Byrd's ship, of Antarctic fame, sails along the streets, --

--just ahead of these striking figures....men, both !

He's  
Having a nice girl, isn't she ?.... Of course, he is !

Whoa !... It's wild !..... Somebody called it a car !

A good show, and no entrance fee ! One of the very few things you can get for nothing, now adays.
