TITLE.:- BEAUTIES OF WINTER.

α

Picture. :- It's like a Christmas card come true!.. Winter--
 --turns the Silesian scenery into many gorgeous pictures,--
 --wonderful to behold ! The dazzling beauty of it all --
 --takes away half the horrors of winter itself ! One could,--
 --almost, be glad that winter has really arrived...

α

Many do, in fact, look forward to winter,--
 --and then they go abroad to Switzerland and other places for --
 --some great fun in the snow..... It sounds alright !...

Although a big roaring fire, with a comfortable
 armchair, sounds rather good --
 --too ! Some people, of course, love to take a trudge --
 --under these conditions !.... It has its merits ! But the--
 --tragedy of it is that, all these glorious pictures eventually
 will --
 --be washed out by slush - when the dreaded thaw comes.
