TITLE.:- SUGAR AND SPICE.

Picture.:- If you like sweet things - I mean the edible kind, of course; --

--they are here in plenty!... The task of the judges is --

--by no means easy.....All sorts of things made out of pure sugar, give --

--them something to think about !.. Some of the models show remarkable ability on the part of exhibitors.

One can hardly believe that this basket and flowers are made of sugar, --

--while this model of the Blackpool Tower tells us whence comes the competitor responsible for its being displayed here.

...Now, isn't she sweet ? She is, every ounce of her !

This little sugar oriental model attracted a lot of attention.....The authorities --

--call it the Cookery and Food Exhibition ! How about "Show of a Million Toothaches", as another name for it !
