TITLE :- WONDERFUL HAUL.

Picture :- Now that's something like a haul ! And I just can't resist the temptation--

--to say that it's a haul of carp not to be carped at ! ...

It's considered a great delicacy in Prussia.

... The carp lives to a great age and can exist --

--for a long time without food. .... This lot have had --

--their last meal, and apparently this fellow knows it !
