

C-552551

(2). TITLE.:- JUGGERNAUT OF WAR.

Picture.:- Here she comes ! Doing 84 miles an hour ! ...

She's the fastest thing in tanks yet, and there's --

--little on earth can stop her against her will !

Before being set to cross-country work, she's tired, -
rubber tired ! And then, --

--heigho ! for the fields and open spaces !

Oh ! and hills ! Not --

--that they mean much to "Tin Lizzie". ... She doesn't
mind the mud and crosses railway lines just as though
trains were never invented. ... You --

--wouldn't have to worry about getting down to Brighton
if you had one of these --

--things ! Everybody else on the road would have to do
the worrying !

And talk about the hills ! That was 45 degrees,
in top ! A mere nothing !

If they ever dish our new "speed cops" out with
these things, we'll have to behave!
