TITLE:- GLIDING IN THE SNOW.

Picture:- The launching of their gliders has, up to now, proved a difficulty --

--to owners of this new type of thrill-plane. ... Some --

--bright individuals thought of using their --

--dog teams for the "run off" ! Here one is ready !; --

--and here come the team, pulling away just as they do a sledge ! And now, up ! she goes ! A good launch !

There goes another - but she is "slipped" a little too soon. ... She doesn't get much of a trip this time !

The huskies wonder what it's all about. ... They're --

--not used to this sort of thing !

They'll soon be able to do the job as well as these double teams of men. ... That's a good one ! There's a thrill in every second of it.
