TITLE:- GO ANYWHERE CARS.

Picture:- They have to pass government tests before they're sent out East. Pretty rough tests they are --

--too, and, of course, they don't choose the best bit of ground.

The government inspector is sitting with the driver. ... He'll prefer to stand, to-morrow, after to-day's bumps !.... This is a 1 in 2 hill, --

--but that doesn't mean much to this 'bus ! ... Down she comes as though the hill had never been there ! ... And then, ---

--"Shades of a car-washer !" Look at that ! Talk about --

--"no-man's land"! ... Why, nobody'd want it after this !... If --

--the water's boiling, they might make tea, but they fail the car !
