

(7).

TITLE.:- NEW AIR PORT.

Picture.:- They're naval planes, and are "showing off" by way of celebrating --

--the opening of the new aerodrome. ... The spirit of joy seems to --

--have entered into the machines themselves.

... Watch these chaps ! ... Up and up, they go - and over,- beautiful ! ... Great stuff, that ! Thrilling to those up there - and below !

This, they call a "double-group, double-loop" ! The meaning of this becomes clear to us as we watch the two trios of machines - (keeping perfect distance) - looping-the-loop, twice right off ! ... There they go on the second loop ! That's first class aerial work, delighting the assembled crowds.

And now the dog chases its tail ! ... We know it'll never be caught - but it's good fun ! ... Round and round they go ! It's a wonder they don't get giddy ! ... A good inaugural show for the new Air Port.
