

(2). TITLE.:- THERE'S NEVER A SLIP...

Picture.:- They're two of the cleverest ice-skating artistes in the States. ... A couple of "twisters" who spin a pretty good living out of their --

--talent. ... Miss Bronson shows that heavyweight boxers are not the only --

--ones to gain a living out of the horizontal. ... The --

--sure-footed pair speed up for --

--their big thrill ! ... Look at that ! ... She's only two feet away from disaster ! ... Of course, anyone can try these stunts - I said try them - but I'd --

--strongly advise that they should take out a pretty hefty insurance (including flying risks) - first ! ... Let's slow them up again, so that --

--we can see, more clearly, the risks they do take ! ... It's--

--great stuff, and these people know how to do it to perfection.

As a finale the male half of the partnership flings himself into a spin which makes him look as much like two of himself as anything! ... If he's not dizzy, it's a miracle !
