TITLE.:- PLANE ON THE ROAD.

Picture.:- It's being "taken for a ride" for shipment to Travemunde on account of reparations. ... Rather --

--a strange sight to meet the eyes in the --

--street, a full blown monster flying-boat as big as --

--a house. ... If looked at from some --

--angles, it really does look big enough to house --

--a family. ... This is possibly the slowest journey --

--she'll ever make, for she's designed for a speed --

--of a hundred miles an hour in the air.

People rubbed their eyes and wondered what had happened--

--when the great aerial monster appeared.

She's going up - but not under --

--her own power yet ! ... A twenty-five ton crane --

supplies the lifting power this time.
