(5). TITLE.:- HIGHER AND HIGHER.

Picture. :- We offer you the first trip on this new mountain railway. ... You can enjoy it in the comfort of --

--your cosy seat in this cinema, without feeling the cold, and without experiencing any of the pitfalls which beset the traveller in these regions. ... Through the mountain we go, emerging into the glorious winter sunlight, on our way up to Montree-le-Planet. ... We pass --

--under shed-like structures of re-inforced concrete, designed to protect travellers against avalanches of snow, which --

--might at any time, come rolling down the mountainside, to give them a cold bath, were these sheds not --

--there. ... The greater part of the line is protected in this way, so travellers may feel as "safe as houses"--

--on the trip. ... As you can see, they are strong enough to support more --

--snow than is ever likely to fall on them. ... Well, here we are, out in the --

--winter sunshine again, enjoying the beautiful panorama of stately scenery. ... It is near the end of --

--the trip - not very far from the summit. ... Altogether a pleasant journey with much to keep --

--one interested all the way.. ... And here is Montree-le-Planet the terminus of the line.
