

(6).

TITLE.:- TOLL OF THE SEA.

Picture.:- Here she is as she appeared when she first grounded on the sandbank last month.

She doesn't look to have much the matter with her, but it was feared she would break her back.

... That's just what happened ! ... Here are the two halves, lying --

--apart, looking like two ships, as much as anything. ... She carried --

8,000 tons of coal, and was on her way from Newcastle--

--to Italy. ... Her valuable cargo is now adrift and people living --

--near the scene are getting some free fuel - for once in a way !

... It is still hoped that she's not "done for". ... They are --

--going to try to join her up again ! ... Good luck to them !
