(8).

TITLE.:- HERE THEY ARE AGAIN.

Picture.:- They must have a broadcasting system of their own in the feathered world. Otherwise, how could all these tens of thousands of wild --

--duck know that this haven from the rigours of the --

--weather exists at Oakland ? Or perhaps they --

--just broadcast that there's free grub to be got without --

--the trouble of catching or scrounging it ! ... It's a pleasant idea, --

--and the birds take full advantage of the "free bed and breakfast" they know they can get at this time of the year.
