

(8). TITLE:- £3000,000 CLAIM.

Picture:- He lives aboard an ex-submarine-chaser, here seen in Granton Harbour, Edinburgh. ... This eighty--

--five-year-old sailor claims that the British Government built hundreds of coastal motor-boats and submarine chasers from his designs. ... He reckons that a 25 per cent "royalty" would amount to three million pounds !

I can't imagine what he'd do with it all if his claim was successful. ... He may not be --

--blessed with much of this world's goods - but he's got tons of OPTIMISM, with a capital "O" !
