

(8). TITLE.:- LESSON THEY LOVE.

Picture.:- The youngsters are delighted when it snows. ...
They love to dash out of the class-rooms to their --

--skis, with the prospect of a jolly lesson in the snow. ...
When they have all fastened on --

--the long boards, away they go, behind their teacher, on a
long trek which serves to give them confidence --

--on the long shoes. ... The instructor takes care that
the route is not too easy, so that --

--the little ones are learning all the time, without
appearing to ! ... Then the youngsters are --

--drilled as a class, and taught to lie down, fall down,
and do most of the things they may have to do when they
get out "on their own" a little later on. ... Up you
get ! ... A --

--little practice in turning comes next. ... It's by no
means easy !

So they all learn to love skis - well ! don't we all ?
