(9). TITLE:- TANNING WITHOUT INDUSTRY.

Picture:- Lucky are they who can spend a holiday on the Riviera just now. ... The sun, almost a stranger to most of us, makes this his headquarters.

Just imagine this in March ! ... It makes us long --

--for the summer, and the little bit of sunshine we sometimes see !

You couldn't help feeling "alive and kicking" under these conditions. ... Some --

--get quite energetic, and have all kinds of fun on the beach !

... Pushball is a favourite pastime with many of the lucky ones, but there are, of course --

--some who prefer to take it --

--easy, and get a tanning this way ! ... It's a "bare fact" --

--that they like being "done brown" by King Sol !

Our last Summer was a Thursday afternoon - let's hope for a full day, at least, this year !
