(1). TITLE:- ITS AN ILL WIND.

Picture.:- The farmers wanted rain. ... Their hopes were more than realized when the heavens opened and they got this lot in something under twenty-four hours ! ... It looks --

--pretty hopeless now, but they consider that the benefits to agriculture far outweigh the inconveniences --

--of the moment...Nearer the towns, of course, the effects were not so pleasing. ... Citizens may have wanted the country to be a little less dry, but they would have --

--preferred their liquid in bottles ! ... If it gets any worse they'll need to carry --

--paddles. ... At the moment,Arizona looks --

--like a good State for visitors - to get out of !
